

MAQ Software

Delivering AI-powered solutions to accelerate your journey to Microsoft Fabric

Who We Are

Frontier AI organization with deep expertise in Data Analytics, Cloud & AI Platforms, Azure AI Apps & Agents, and Security. We enable leading enterprises to reshape business processes, reduce costs, and build stronger customer relationships through scalable, AI-powered solutions.

Industries We Serve

Technology, Retail, Financial Services, Energy, and Healthcare.

Our Offerings

- Migrating and modernizing existing data estates with Microsoft Fabric.
- Innovating customer experiences with Azure AI Apps and Agents.
- Unifying data and analytics platforms to streamline operations.
- Enabling AI-powered real-time intelligence (RTI) for faster business decisions.
- Implementing enterprise-grade security to protect data and applications.

AI-Driven Accelerators

AI-DataLens

Unlock data-driven insights with AI-powered conversational analytics.

Event Assistant

Deliver on-demand information, personalized scheduling, and interactive support to attendees.

FindFAST

Provide instant, context-aware insights across multiple formats with a user-friendly enterprise search platform.

Smart Support Framework

Build agentic solutions to automatically route tickets and provide recommended actions.

Fabric Accelerators

MigrateFAST

Accelerate data platform and reporting migration with AI-powered tools.

LoadFAST

Achieve optimal Power BI performance with scalable and accurate load testing.

EmbedFAST

Embed Power BI reports seamlessly into enterprise solutions.

RTIFAST

Simplify data ingestion across multiple tenants at a lower cost and with greater flexibility.

MonitorFAST

Track and monitor Fabric capacity health across tenants to align with best practices using an autonomous Agent.

CertyFAST

Ensure Power BI reports meet enterprise data quality and semantic models are AI-ready.

Customer Impact

- Reduced search time of enterprise data sources by 60% with a RAG-based Agent that delivers contextual, secure responses.
- Built a Marketing Agent to automate research, segmentation, and content creation, shortening campaign lifecycles by 45%.
- Automated invoice processing with POE verification, eliminating manual errors and approval delays for faster, on-time payments.
- Streamlined legal request validation, information extraction, and response fulfillment, helping legal specialists reduce response times and ensure compliance.

Fabric and AI Expertise

300,000

Reports migrated from Tableau, Qlik, BOBJ, MicroStrategy, etc. to Power BI

1,500

Certified Fabric Analytics and Data Engineer Associates (DP-600 & DP-700)

500

Data models migrated from platforms like Snowflake, Teradata, and Synapse to Fabric

30

Agentic AI accelerators

20

Fabric SaaS accelerators
